DUO PLUS COMPACT

Well packed - safely

DUO PLAST, your specialist for stretch film, presents you the DUO PLUS COMPACT, the all-rounder with a PLUS in quality and safety to meet the toughest demands and give optimum results.

The multi-layered co-extruded film, produced in one of

Europe's most modern and best-equipped manufacturing facilities, is made from the highest quality raw materials and is subjected to regular inspections in our in-house laboratory. We can therefore assure consistently premium quality.

THE ADVANTAGES BENEFITS & SAFETY

- Superbly well suited for the winding of round and square bales on all commonly used winding devices
- Extremely high tear and puncture resistance and can be used with heavy silage materials and under extreme weather conditions
- Optimum yield – can be pre-expanded by more than 90%
- Optimum adhesive force - perfectly sealed film layers and dense bales
- Optimum oxygen barrier - excellent silage quality
- Easy handling of bales thanks to smooth outer side
- Quiet rolling characteristics - can also be used in residential areas without any problem
- Best colouration and opacity of film
- No adhesive deposits on the rollers on the winding device
- Food-safe and extremely robust: made entirely of polyethylene without noxious pollutants, 100% suitable for recycling

THE VERSIONS

- Colours: White, green, black
- Special versions possible on request

DUO 	Thickness microns	Width mm	Length m	Roll/ Pallet
COMPACT	25	500	1.800	36
		750	1.500	30
COMPACT XL	22	500	2.000	36
		750	1.650	30
COMPACT XXL	22	750	1.900	30
